Operating System	Windows OS version 1903 (18362.356) or 1909 (18363.418)
-------------------------	---

Devices running older or newer OS versions will not receive this update. Refer to the following link for version support information:

<https://docs.microsoft.com/en-us/microsoftteams/rooms/rooms-lifecycle-support#windows-10release-support>

What is in this update?

The table below lists functionality additions/updates and fixes for issues.

Known Issues:

None

Planned Update Schedule

The updates will be rolled out according to the following schedule. If you have configured your staging ring with eligible devices for this update, please validate the update and report an incident if you are noticing any issue.

Staging Start	General & Other Rings	Executive
Mar 29, 2021	Mar 05, 2021 (default 7 days in staging, will vary based on your specific configuration)	Apr 12, 2021 (depends on time allocated for previous rings)

Note: The timeline might vary slightly from the plan depending on our monitoring. If there are substantial changes, there will be a follow-up announcement.

What actions do I need to take?

Teams Rooms Managed Services does not manage Windows updates at this time. To receive this update, eligible devices must be updated to Windows 10 Version 1909 (OS build 18363) or 1903 (OS Build 18362).
